CORONA Management Responsibilities 18 June 1959 COR/eo
to AC/DPD(Burke) from RMB

Ref (DPD S/O memo 15 June COR 9494) raises several questions
re management of COR and VEDAS. Due imminent departure of
[redacted] entry on duty several decisions required.

COR Project Officer. [redacted] to assume asap.

Cover Officer. Desirable to get TMA an assistant. CORONA
responsibilities so heavily concentrated on maintenance of
cover, Ted will continue to spend at least 2/3 time on COR.

Development Officer. Assuming JP to work as [redacted] colleague
and deputy and to play increasingly important part in the
management of the major DPD projects. He is devoting
considerable time and energy to GUSTO and should develop
competence in re both COR and GUSTO.

Agency's responsibilities in re satellite projects in particular
needed clarification, according to [redacted] but RMB said
he believed Agency's responsibility had become clearly
defined in various memoranda, and in any event he feared any
further drawing up of written treaty with ARPA and the
Air Force would produce much debate and negotiation without
making any profit.
